

HI TECH PEOPLE: APPOINTMENTS AND PROMOTIONS

LORRAINE DUFFY

Recently appointed General Manager, Lorraine Duffy will lead the strategic direction of Hi Tech 2018-2021 through identification and delivery of new business opportunities and initiatives as well as reaffirming the values, standards and corporate culture to Hi Tech's well respected 27-year history. With a career that spans across hospitality and as Chief Executive of national associations Accommodation Association of Australia and Parking Australia, Lorraine will blend her creative and operational strengths to drive the key objectives at Hi Tech that will facilitate innovation and future directions.

SHANE MADDEN

Shane has recently been promoted to Operations Manager. He commenced with Hitech as a trainee water blaster in **July 2008** and he progressed through the company to senior blaster, leading hand and most recently as supervisor. Shane's experience extends to hydro demolition and industrial services on both **hand gun and robotics** including the cold cutting (WAS) system and he has been at the forefront as a team member and leader on [projects](#) such as Daunia Mine Airport link, Legacy Way, De-salination plants in NSW and South Australia, North West Rail Link, Northconnex, NCIG Coal Export Terminal Stage 1 and 2, Hunter Expressway, Caltex Wharf Kurnell, Newcastle Ports, Eraring Power Station- just to name a few!

SHAUKAT AHMED

With a Master of Engineering and Bachelor of Science in Mechanical Engineering, Shaukat joins the team heading up Estimating and Project Management. He brings a wealth of experience from his overseas roles with Global company Toyota Tsusho Group where he was involved with design and technical support and with Heavy Industrial Machinery and Equipment's organisation Hara Corporation. Shaukat will be applying his technical and practical knowledge to prepare take-offs, quotations, tenders as well as prototypes for new innovations at Hi Tech.
